Professional Summary

Software Engineer (2025 graduate) with 6 months of product-based internship experience building scalable web applications using React.js and Spring Boot. Strong foundation in Data Structures and Algorithms (200+ problems solved). Experienced in REST APIs, microservices architecture, and performance optimization. Passionate about clean code and real-world problem solving.

Technical Skills

Languages: Java (8+), JavaScript, TypeScript
Backend: Spring Boot, Spring WebFlux, REST APIs, Spring Data JPA
Frontend: React.js, Ant Design, HTML, CSS
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, Maven, Swagger
Core Concepts: OOP, Collections, Streams API, Microservices Architecture

Experience

Fintechy

Jul 2025 – Jan 2026

Product Engineer Intern

India

- Contributed to production-grade AP & AR finance automation modules.
- Developed reusable UI components using React.js and Ant Design.
- Built dynamic tables with pagination, filtering, and infinite scrolling.
- Integrated frontend with backend REST APIs and improved UI performance.
- Collaborated with backend and product teams to deliver business-critical features.

Quantanics TechServ Pvt Ltd

Jun 2024

Web Design Intern

Madurai, India

- Built responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Implemented authentication UI and form validation following best practices.
- Reduced UI defects through testing and code review practices.

Projects

E-Commerce Microservices Platform | *Spring WebFlux, REST APIs, MongoDB*

- Designed Order, Payment, Inventory, and Notification services.
- Implemented non-blocking inter-service communication using Spring WebClient.
- Managed order lifecycle states and stock validation before confirmation.
- Applied centralized exception handling and clean architecture principles.

Accounts Payable & Receivable Module | *React.js, Ant Design, REST APIs*

- Developed invoice workflows handling vendor and customer operations.
- Built multi-step forms with validations and API integration.
- Implemented optimized data rendering for large datasets using React Virtuoso.
- Improved user experience through conditional rendering and error handling.

Education

Sethu Institute of Technology

Aug 2021 – May 2025

B.E. Electronics and Communication Engineering (78%)

Tamil Nadu, India

Certifications

- Product Engineer Internship Certificate – Fintechy
- Web Design Internship Certificate – Quantanics TechServ Pvt Ltd
